

KOREAN DOUBLE SHOT

INTERNATIONAL HORSE ARCHERY ALLIANCE

TRACK, EQUIPMENT, AND SET-UP: The track shall be 90m long, 2-4m wide, with a 10-15m run in/run out. Target faces shall be standard FITA-80cm ring targets and set so that their center is 90cm in height. Targets shall be set 7m from the track. The first target shall be positioned 40m along the track and shall be angled for a front shot, while the second target shall be positioned 50m along the track and angled for a back shot.

RULES: Each competitor gets 1 warm up run on the track (without shooting), and has 3 scoring runs on the track. All runs must be completed at a canter or gallop. **Competitors MUST NOT TOUCH THEIR ARROWS UNTIL THEY HAVE PASSED THE STARTING LINE.** Arrows must be drawn from the quiver or belt. If the competitor touches the arrow before they have passed the start line, they shall score no points for their first arrow shot at a target on that run, although they may score with any subsequent arrows shot on the same run. A judge shall be positioned at the start line to judge whether a competitor has drawn early. The benefit of the doubt shall be given to the competitor. If the judge is not sure whether the competitor drew early or not, then no penalty shall be imposed. Only one arrow may be shot at each target. A competitor whose first arrow will score zero because they touched their arrows before the start line, may still only shoot as many arrows as there are targets for that course. Any arrows shot beyond that number for the run shall not count.

TIME & SCORING: All targets score as follows (inner ring outwards): 5pts, 4pts, 3pts, 2pts, and 1pt. The time allowed to complete the run is 14 seconds. One point is shall be awarded or deducted for every second over/under the time limit. Time bonus points are only awarded if the competitor hits at least one target. If no targets are hit, then the run scores zero, regardless of time taken. Total scores (target pts + time pts) for each run are added together to give total score.

WALK/TROT: Competitors in the Walk/Trot Division will ride a shorter course of 50m with targets positioned at 20m and 30m. Per IHAA Rules, it is permitted to ride at a faster gait, but it is NOT permitted to ride at a slower pace. (ie: if a horse stops during a walk, or slows to a walk or halt during a trot, then no points can be scored on this particular run, even if no arrows were shot when moving at the slower pace). There will be no time constraints and no multi-hit bonus. All other standard rules apply.
